NEW GENERATION OF IODINE POST MILKING BARRIER TEAT DIP ENHANCED BY LACTIC ACID

- Post milking barrier dip protects teats between milking
- Low drip formula to reduce wastage and mess
- En1656:2009 tested for efficacy against Strep uberis, Staph aureus and E Coli
- Three way emollient effect for longer lasting teat condition
- Ready to use formula – no mixing and no fuss
- Highly visible on teats for extra peace of mind
- Starts to work as soon as applied

RECOMMENDED USAGE

Teat Dipping: The product should be used direct from the container without dilution.

1. Fill a teat dip cup two thirds full with TriCide® Gold.
2. Immediately after each cow has been milked, dip each teat in the solution ensuring that the entire surface of the teat comes in contact with the solution.
3. Refill the cup as necessary.
4. Dip cups should be emptied after milking and washed before reuse.

Due to the viscous nature of this product TriCide® Gold is not suitable for use through a teat spray machine.

Storage: Store in a dry well ventilated area away from sources of heat or ignition

Pack Size: 25, 200 & 1000 litres

Shelf Life: 24 months from date of manufacture
